family.

J. B. Madden, principal of Ross institute, the leading institution of learning of Cleburne county, became infatuated with Mabel Williamson. The matter culminated last night, when at a singing a note was quietly handed her. After the adjournment, Mr. Dobbins, who boards with Madden, escorted Mabel a part of the way toward her uncle's, when they separated, and Mabel went an unfrequented way to where Madden and his wife were secreted with a buggy, and all three hastened to Edwardsville.

It is reported that Mrs. Madden and Mabel were to take the 3 o'clock a. m. train for Mississippi. Some of the citizens with Mr. Williamson decided otherwise, and following the fleers to Edwardsville, they found Madden, his wife and Mabel in a room at the hotel. Miss Mabel refused to return. Many hard words were passed and much feeling existed, but finally the party of rescuers returned with their

Coinage—The Virginia Convention.

Pocatello, Idaho, May 6.—The republican state convention to nominate six delegates to the Minneapolis convention was held here yesterday, ex-Senator McConnell being chairman. The convention was dominated by two leading ideas—free and unlimited coinage of silver and James G. Blaine as the candidate of the party for president. The speeches were devoted largely to these two subjects, and it was apparent that the delegates were very much in earnest on both points, and the name of Blaine aroused wild enthusiasm whenever mentioned. The following delegates were selected: Senators DuBois, Willis Sweet, James M. Shoup, W. B. Heyburn, Monte B. Gunn and D. C. Lockwood. President Harrison is not referred to in the platform, but a strong Blaine plank was adopted. Un the silver question the platform recites at length the evils attributed to silver demonetization.

Mahone Had His Way.

Roanoke, Va., May 6.—It was 3 o'clock this morning before the republican state convention adjourned. A big fight was made on the question of instructing delegates to Minneapolis to vote for Harrison. Mahone and Lanzston opposed this and for awhile it locked as though a deadlock would ensue. A vote was finally taken and Mahone won by a vote of 303 1-2 to 173 1-2. Mahone stated that if the delegates were instructed to vote for Harrison he would not obey the instructions. The convention then adjourned sine die.

Columbia, S. C., May 6.—(Special.)—Mr. John L. Weber, of the editorial staff of The News and Courier, is in Washington city, making every effort to secure the appointment as civil service commissioner to succeed ex-Governor Hugh Thompson, who resigned the position to accept the office of comptroller in a New York life insurance company. Mr. Weber surprised a good many of his friends, when the fact leaked out here today that he was professing republican faith in national politics to secure the appointment he desires.

Chicago, May 6.—Rainstorms without parallel in recent years have prevailed throughout the western country for the past two days, and the amount of damage done is enormous. Traffic on the Rock Island road between Joliet and the Mississippi river has been suspended, owing to the numerous washouts along that portion of the line, with the result that the entire system is practically tied up. All through trains coming east have to stop at Davenport and Rock Island, and west-bound trains will not attempt to move out of Chicago before this morning. At Joliet hundreds of families had to quit their homes and go to the bluffs fearful that the dam would go out, in which case the middle of the city would be placed under water. The factories have from one to nine feet of water in them.

TO EXPOSE THE TRUTH OF HISTORY. The Guilty Senators Will Be Brought to Light.

THE ANTI-HARRISON CONSULTATION

Did Not Take Place Yesterday as Anticipated—Booming Sherman Against Harrison.

Washington, May 6 .- (Special.)-The newspaper correspondents of Washington are going to investigate the charges made by the senate against Mr. James Young, the executive clerk.

It will be remembered that Mr. Young was removed under the charge of having betrayed execultive session secrets of the senate. No effort was made to prove the charges, an- he was not even given an opportunity to prove his innocence. Mr. Young is a newspaper man and the correspondents have taken up his case, and will insist upon their right that any one of their number shall have a fair hearing when charges are preferred against him. Mr. Young 's innocent. There is no senator who does not know that Jim Young has never betrayed a secret of the senate. The senate removed him to shield several senators, and the newspaper men, knowing him to be innocent are going to have an investigation, and

bring out the truth of the matter. The Work in Congress. The senate spent the day in listening to culogies on the late Senator Wilson of Maryland. In the house, the urgent defi-

ciency bill was debated.

The Anti-Harrison Leaders. So far as is known here, the conference of the anti-Harrison leaders, which was to have been held at Pittsburg today, did not occur. Senator Quay did not go to Pittsburg, as was expected last night. He explains his failure to leave Washington on the ground that he was interested in some matters in the river and harbor bill, which he did not think of until the last moment, and was obliged

therefore to postpone his trip. Although no definite information could be obtained, it is now believed that the anti-Harrison conference will come off either here or in New York.

Today there was a suspicious outcropping of Sherman talk precipitated by the announcement made in The Albany Journal yesterday, that the anti-Harrison men in New York had united on Senator Sherman. If Blaine will not run, many of the republicans opposed to the president pelieve that John Sherman would make the strongest candidate. One of the anomalies of the political situation among the anti-Harrison republicans is that the silver men appear to be looking with favor upon the candidacy of Senator Sherman. They explain their willingness to accept the one man who is charged with of silver in 1873, on the ground that Sherman is no more of an anti-silver man than Harrison, and is a good deal more

"It is by no means improbable," said a republican from the far west today, "that the silver men at Minneapolis will work tooth and toe nail for Sherman, not be cause they are not opposed to his views on silver, but because they think he can beat Harrison for the nomination and would be a stronger candidate at the

ballot box." Senator Sherman's friends will not say much, and the senator himself receives every intimation of his possible nomina-tion with a shrug of the shoulders. Unless the nomination comes to him practically unsolicited, it is safe to say that he will not enter into another scramble for it. A couple of months ago when his name was suggested, he said to your corre-

THE TIME AGAIN EXTENDED

For the Deposit of Securities of the Richmond Terminal.

New York, May 6.—The meeting of the reorganization committee of the Richmond Terminal today failed to result in either an abandonmens of the plan or action which would encourage hope of the final success of reorganization. The exhibit of deposited securities was extremely meager as regards underlying securities and if is now believed that a modification plan in future cannot be avoided. All of the members of the committee were present executed the committee were present executed. Oliver H. Payne, who is in Europe. Chairman Fred P. Olcott presided for the first time in many weeks, his absence having been caused by illness. The following is the report of the secretary, George S. Ellis, of securities deposited with the committee up to date: Richmond Terminal—Common stock, \$6,0775,400; preferred stock, \$3,759,360; collateral trusts, fives, \$7,828,000; collateral trust, sixes, \$2,206,000; total, \$74,508,700. East Tennessee, Virginia and Georgia.—First preferred, \$331,000; second preferred, \$6,076,000; common stock, \$12,-501,000; fotal, \$19,459,000. Other stocks and underlying bonds, \$2,578,200; guaranteed stocks with other depositaries, \$823,000; letters pledging deposits under conditions, \$2,450,000; fotal, \$100,494,400.

These figures indicate that practically no progress has been made in securing assent to the plan of the underlying security holders. The committee simply decided to extend the time for the deposit of Richmond Terminal securities to May 10th.

in a manner which will reflect new honors upon and add additional luster to the former good rame and high standing of our district. J. W. Robinson, of Haber sham, and let us again have a representative in congress who will be the peer of any man in that honorable body, and one of whom we may all feel justly proud.

Colonel Robertson, after the adoption of the resolution stated that he was not an apirant for congressional honors, but the resolution was a matter of deep consideration. He would consider the same and be governed by what he thought would be to the best interest of the democratic party of the district. Colonel Robertson is manager and superintendent of the Porter Manufacturing Company in this county, an old-time democrat and ex-railroad commissioner of Georgia, from which position he resigned last year.

For the Cause of Genuine Democracy, and Newnan, Ga., May 6.—(Special.)—The third party had another Waterloo in Coweta today. Messrs. Gorman and A'eek were billed to address the people. Never was there a better gathering of Coweta's intelligent manbood than that which assembled today in the courthouse. Mr. Peek failed to put in his appearance, but his place was well filled by Mr. Chupp and Rev. Sam Small. Mg. Gorman began the argument for the third party, and he had the closest attention of the crowd. Colonel W. A. Post replied in behalf of genuine old democracy, and it was soon discovered that there were few third party men in Cowets. They had mustered their forces, and seemed to have but three or four sympathizers. Colonel Post made a splendid speech. Mr. Chupp followed in a speech for the third party, which was listened to with interest by the large crowd. Colonel P. H. Brewster next spoke and swallowed the third party, Gorman, Chupp and all. The enthusiasm had no bounds. Rev. Sam Small next addressed the audience in his usual style, a nice speech, but won no votes for the third party in Coweta. A GOOD INQUIRY FOR COTTON GOODS.

The Hardware Trade Exceptionally Good The Money Market Not Disturbed by the Heavy Exports of Gol 1.

New York, May 6.-R. G. Dun & Co.'s weekly review says: The business failures occurring throughout the country during last week number for the United States 186; for Canada 23. Business has been much retarded throughout most of the western states by unusual and continued rains. The movement of products is thus delayed, though it is believed temporarily. Collections are retarded. Seeding in many quarters is interrupted, though on the the distribution of goods is checked. A somewhat better tone appears at the south and business at the east is fairly active for the season, although in some lines dull and depressed. Money is everywhere abundant, in part because the demand is smaller than usual, but this is, in a measure, due to the unusual conservatism of trade, buy-ers making many small purchases instead fully for actual distribution. This is pecu liarly the case in the dry goods and

liarly the case in the dry goods and boot and shoe trade. Orders at any one time have been in most branches moderate, but they have been repeated again and again until the volume of business is large. Flannels are improving and the unprecedented distribution of dress goods helps the manufacturer. Sales of wool this year at the three great markets have been 03,282,376 pounds against 87,100,726 last year, a gain of 7 per cent.

Inquiry for cotton is large and improving, western stocks being small and trade in prints fair for the season. The iron trade shows larger transactions but no better prices. Thousands of coke ovens have stopped at Connellsville, because the manufacture is slackening, but more inquiry is seen for rails. At Philadelphia the grocery trade is larger than a year ago, and the paint and glass business fair, while fullding operations exceed last year's by 14 per paint and glass business fair, while building operations exceed last year's by 14 per cent. At Baltimore trade is decidedly satisfactory, southern trade being fairly maintained and exports exceed those of the previous month. Furniture manufacture is improving, and ship building plants are taxed to their full capacity. Iron is slightly weaker at Pittsburg, and the glass trade not pushing, but the hardware trade is exceptionally good. The demand for coke is shrinking and prices cut. At New Orleans trade is somewhat improved, with cotton more active, and at Savannah is somewhat decreased, the drought having affected crops.

Cotton is a sixteenth higher, though receipts and exports exceed last year's because of the sensational accounts of a decrease in the acreage. Pork products are

crease in the acreage. Pork products are a shade lower and coffee weak at three-eighths decline.

Receipts of cattle at Chicago in April were the largest ever known in that month, exceeding last year's by 15 per cent. The money market is not disturbed by the exports of over \$5,000,000 in gold last week, though \$2,600,000 more has already been engaged to go this week. Banks are well supplied, and the treasury cannot accumulate its revenues for ten months, being \$38,000,000 short of last year, and it has naid out during the past week \$1,200,000 in gold and notes. Exports have been a little larger.

FIGHTING THE FLAMES. Large Conflagration in New York Yesterday Morning-The Losses.

New York, May 6.-At 2 o'clock this morning fire was discovered in the immense slaughter house of Swartzschild & Sulzbergers, wholesale butchers, at Forty-fifth street and East river. The flames spread so rapidly that the second and third alarms were quickly sent out, which brought to the scene twelve engines and alarms were quickly sent out, which brought to the scene twelve engines and four trucks. Despite this force, the flames gained rapid headway until they enveloped the great three-story structure which runs from Forty-fifth to Forty-sixth street and extends to the river. In this building there were large quantities of inflammable material, which fed the flames to such an extent that by half-past 2 o'clock the whole block was in flames. The fire during its progress reached the lard tanks, when a terrific explosion occurred, quickly followed by four others, which shook the adjoining buildings almost to their centers. By half-past 3 o'clock the fire covered the space of 200x300 feet, and at that hour it was estimated that already two hundred and fifty thousand dollars' worth of property was destroyed.

At 3:45 o'clock the pier at the foot of Forty-fifth street caught fire. The flames ran along the wharves until they were burning all the way to Forty-seventh street.

A GAY "LIEUTENANT"

stituteFame, Gives Evidence of Being. "Lieutenant" J. C. Brewster, the alleged representative of the Smithsonian Institute,

s still in parts unknown And residents of Atlanta are not alone And residents of Atlanta are not alone desirous of locating him.

The lieutenant has visited other cities on his misssion in the interests of a geological survey in Texas. And he left them in the survey in Texas. And he left them in the same quiet, mysterious manner in which he departed from Atlanta several days ago.

On yesterday Chief of Detectives Wright made another vigorous effort to locate the missing man. It proved as unavailing as his former attempts had been and that officer began to believe that he had skipped.

Last evening a telegram was received at police headquarters from Chief of Police S. H. Norton. It stated that I. C. Brown.

Last evening a telegram was received at police headquarters from Chief of Police S. H. Norton. It stated that J. C. Brewster, representing himself to be an agent of the Smithsonian Institute, had left the Magic City a week or two ago for Atlanta and that he was badly wanted.

The charge was that of obtaining money under false pretenses and Chief Connolly was asked to look out for the "lieutenant," and to arrest and detain him until an officer could be sent for him.

The reception of the telegram immediately strengthened the belief that Brewster was gone for good and that he had been working a swindling scheme in Atlanta that he sharply practiced elsewhere. The communication from the Magic City was quickly followed by one from Meridian, Miss., asking that the "lieutenant" be located with a view to arresting him if he became wanted. The case was exactly like the one in which the "geologist" figured in Atlanta.

telegrams in which Chief Connolly was requested to locate the same man.

There is but little doubt that the parties in Atlanta who contributed \$15 each with visions of glorious returns for their money and with expectations of receiving the amount back when Texas was reached, have now abandoned hopes of ever seeing the "lieutenant" again.

Several telegrams were sent out by Chief Wright yesterday to various cities asking that Brewster be located. He has not yet received a reply to them. In his effort to ascertain whether the man was an impostor, he has been joined by the intelligence bureau of Jackson & Derry, through whom Brewster advertised.

How many other cities he visited besides those thus far heard from is not known. It is believed that a large number in the south have fallen a victim to what gives promise of having been the slickest of schemes.

Brewster is not by any means an old or even a middle-aged man. He is barely thirty years old and gives the appearance of being still vonger thirty years old and gives the appearance of being still younger

A BURGLAR KILLED.

Pacific Train Robbery.

Birmingham, Ala., May 6.—E. E. Liddell was killed at Pratt Mines early this morning while bulglarizing a jewelry store. He in company with G. W. McDaniel and C. L. Miller went to Pratt Mines with the purpose of committing burglary. McDaniel was in the employ of Detective J. B. Robbins, of this city, who had been working up the train robbery which occurred at Collins Station on the Georgia Pacific railroad on the 30th of March. Liddell had previously made a confession to McDaniel that he was connected with the train robbery and told him of his intended trip to Pratt Mines. McDaniel gave this information to Detective Robbins and he instructed McDaniel to go with Liddell and Miller and learn the exact night of the intended robbery. Being informed that last night was the time set for the burglary. Detective Robbins with a posse repaired to the place, secreted themselves and awaited the coming of the burglars. At 2 o'clock this morning three men arrived at Pratt Mines in a buggy, and after tying their horse in the woods near by went to the store and opened the front door. McDaniel remained outside while the others went in and began proceedings. At a signal from McDaniel the posse closed in on their game. Liddell ran out the back door and was shot by one of the posse fellow of the formundred yards from the store at daylight. He had been known in this city as a quack dentist. He was identified as a burglar from New Orleans. Miller is in the county jail.

Chattanooga, Tenn., May 6.—(Special.)—While a switch engine was switching coal cars in the upper switching yard on the East Tennessee road tonight two cars became detatched from the engine and started down the steep grade alone. They ran for a quarter of a mile gaining tremendous speed and crashed into switch engine 76, which was coming out of the lower yards witha loaded train. Fireman J. W. Roberts jumped through the cab window, escaping with a slight scalding, but Engineer N. C. Flagg was caught and pressed against the boiler, where he was literally roasted to death. For fitten minutes his piteous cries and shrieks could be heard. He was taken out after two hours; hard work and presented a terrible appearance, his nose having been burned away and his body roasted to a crisp. He was a single man twenty-tiree years of age and came from Whitesburg, Tenn.

It all came about in this way. It all came about in this way.

The Atlanta and Chattaboochee Street Railway Company runs from a point on Spring street to the Chattahoochee river. At Jones avenue the line crosses the track of the Consolidated company. The right to condemn the track of the Consolidated Street Railway Company was granted to the new line by the city council last November when its franchise was granted.

Afterwards in arranging as to the price to be paid by the Consolidated company, Mr. Hurt agreed that if Mr. Simmons would equip his line with frogs similar to those in use on the Consolidated lines, no money consideration would be required of the Atlanta and Chattahoochee Street Railway Company.

To this Mr. Simmons agreed—the contract being a verbal one.

That agreement will, no doubt, play a part in a lawsuit which seems imminent between the two companies.

part in a lawsuit which seems imminent between the two companies.

In ordering his equipment from the Pennsylvania Steel Company Mr. Simmons ordered switch frogs in conformity with those used on Mr. Hurt's lines.

The equipment arrived last week, but the frogs were not what had been ordered, and were not at all like those used on the Consolidated.

Tuesday it came to Mr. Hurt's ears that Mr. Simmons was going to put the frogs he had received in place, and he at once en-

tered protest.

Mr. Simmons insisted that while the Mr. Simmons insisted that while the frogs he had received were not like those used on Mr. Hurt's lines, they would answer—and not that but would do quite as well as the others Mr. Hurt wanted so badly. Mr. Hurt then brought the matter to the attention of Dr. J. D. Turner, chairman of the electric committee of the council. Dr. Turner told Mr. Simmons that the work must not go on until some understanding was reached.

Wednesday morning Dr. Turner visited the place where the switch was to be laid and found hands at work preparatory to putting it down. The foreinan explained that an agreement had been reached by the two companies. This was satisfactory and Dr. Turner left.

Later in the day Mr. Hurt said that the matter had not been settled at all, and again Dr. Turner took the matter in hand. This time he called in Mr. Jim Stephens, a member of the committee. The two gentlemen looked into the matter, and decided that Mr. Simmons should give a bond to insure the Consolidated against any damages that might

One month later, while colored people were removing their dead from an old to a new cemetery, an unknown white man, in a good state of preservation, was found buried two feet underneath the surface. It is now thought that Pugh was the man. Foul play is suspected. Mr. Simmons at first demurred at this, but when the electric committee informed him that he must either do this or stop the work or sign the bond, he did the latter.

The bond was drawn by City Attorney Anderson and was for \$2,500. Its conditions were that the frogs Mr. Simmons had received could be used for sixty days, at the end of which time frogs as agreed upon

McKie, who catches for New Orleans, came up first and hit a poppy to right for a base. Finke popped a fly to Friend who took it down. Smith mad an easy hit and McKie went to third. Dowie hit for two bags and Adams for one. The four hits gave New Orleans three runs.

Long struck and for the first time this season, while Berryhill and Westlake flew out to Adams in left field.

Hits by McKie, Finke and Smith in the second gave New Orleans another run.

McIntyre's hit and Dowie's error gave Atlanta her first run.

In the third, fourth and fifth New Orleans couldn't get beyond first. In these innings Friend showed some of the finest work ever seen in the south. Man after man went down before him, while only one hit, and that a scratch, could be chalked against him.

order when he issued it. Maskrey atter protesting ordered Lawson to take Hill's place.

Then Atlanta made four more runs.

As the side went out, Wilson ran towards the players' bench, and he and Hill came together. Before a half dozen words had passed, Wilson ordered the police to take Hill from the grounds.

Hill was out of the game, and was standing at the corner of the grand stand saying and doing nothing. Wilson ran up to him in a highly excited manner, and people who were standing by declare he used a highly offensive epithet toward Hill. Captain Manley, who was one of those standing by Hill, caught Hill by the arm, and as he was trying to lead the ball player, who was highly excited, away quietly, Wilson ran after him, using, it is charged, some very ugly language. Hill jerked away from the policeman and, turning around quickly, knocked Wilson down. Wilson grabbed a bat and started toward Hill.

In an instant everybody was up, and a great crowd rushed upon the grounds.

The crowd was big enough to interfere with the game, and Wilson borrowed a policeman's watch. As he began watching the hands move, the Atlantians began trying to chase the crowd off the field. Wilson watched the face of the watch for about two minutes and then announced: "I give this game to New Orleans by 9 to 0." Nobody heard what he said, but he took advantage of the crowd and ran hirriedly to the dressing room and out to the street.

Rule 61 declares that every club shall furnish a police force sufficient to preserve order in event of a crowd entering the field during the game so as to interfere with the playing. A week ago we placed a large poster on the show windows of the Douglerty store on Peachtree street, giving notice that on Monday next, as a dry goods houset the doors of this old popular place would again be thrown open to the public. Since that time we have had a score of men hard at work arranging the stock for the appointed opening Monday. But we find that the work is now but half finished. The stock is an enormous one, and it will require a full week longer to put it in readiness, and the opening will necessarily be postponed until Monday, 16th instant. On that day we shall be in a position to show one of the most elegant stocks consisting of dry goods, notions, furnishing goods and shoes, ever exhibited in Atlanta. We cordially invite everybody to the opening, May 16th. No more postponeents.

Mr. Thod Hammond, attorney for the Consolidated, was present when the bond was drawn and spparently agreed to it, himself dictating one clause of it.

Shortly after it was signed, however, night before last, he went before Judge Clarke with a bill for injunction to restrain the Atlanta and Chattahoochee Railway Company from laying down the frogs at all.

Judge Clarke signed the bill Thursday night and set May 14th to hear the bill. Yesterday morning Mr. Simmons was served with a notice of the suit and Judge Clarke's restraining order. He was surprised. He thought the matter had been settled.

prised. He thought the matter had been settled.

He was badly rattled at the turn affairs had taken. The handsome new summer cars for his line had just arrived and he had intended to start the line today, but the sudden turn of affairs broke up his plans.

To put the case off until the 14th meant that the opening of his line would be delayed until that time.

He immediately pulled off his coat and got down to work to prepare an answer to the bill of the Consolidated company.

This bill he will carry before Judge Clarke this morning and ask for an immediate hearing. He will state the facts to the court and he hopes to be able to get Judge Clarke to allow him a hearing today.

In the meantime Mr. Simmons is not entertaining very pleasant feelings towards Mr. Joel Hurt.

"It's not right," said he, "that he should stop us entirely. I see no earthly reason why he should do so unless it is just to keep us from running at all."

The case promises to become still more lively as it develops.

He seemed perfectly happy and his happiness was infectious. Every man in the team joined hands and pulled for victory. The big crowd liked the way the boys worked and for the first time since the season began encouraged them. It set the players wild and nothing could get out of their way. The pelicans could not bat a ball out of their

They were all happy and their faces were

wreathed in pleasant smiles.

Everybody present could see the change in the men, and everybody knew that the change was due to the support the players were receiving from the same people who had broken them up by guying.

Hon. Charles Genslinger, of New Orleans, the president of the Southern League, was in the Atlanta directors' box and watched the game as it went along. He was pleased with the snap the Atlanta boys exhibited and remarked:

and remarked:
"They play mighty good ball."
A second later he remarked.
"I've been told that Atlanta always cheers

How Atlanta Won.

Hits by Schabel and Westlake, a stolen base by Schabel and an error by Smith gave Atlanta a run in the third.

A two-bagger by Hill, a single by Schabel and a double by Long gave up two more in the fourth, tying the score.

It was then that the grand stand went wild—and went wild for the Atlanta boys.

New Orleans added one in the sixth by Plock's hit and Westlake's only error.

Just then Atlanta jumped on Martin and killed him. Dooly flew out to center. Hill made a hit. Schabel got his base on balls. Long made a double. Berryhill hit for 'bree bags. Westlake got a single and McLtyre just twice ac much. All that rendend four runs and the boys trotted around the tases laughing.

But during all that time Wilson was roasting 'em. Time and time again he covered Friend hy celling deed eviters hells.

and then the boys wanted more friends and tried to get them by the same tactics.

tried to get them by the same trictics.

And they did.

But that same kicking ended most disasterously for the ball lovers of Atlanta. It resulted in a fight between one of Atlanta's best ball players and the umpire right in front of the grand stand.

That such an affair should occur every Atlanta ball lover deeply regrets, and every-body connected with the Atlanta club was outspoken in his regret that such a thing should have happened to mar an otherwise beautiful game. Nothing will excuse a player for an assault of this kind. But those who saw it will always blame the umpire and in a measure exonerate the player.

In the ninth inning when the game stood 8 to 8, Maskrey got his base on balls. He stole second and Dooly went to first by the shortstop's errors. Hill flew out and Schabel struck out. Then Long came up. Maskrey started to third and McKie threw wild. Dowie could not reach the ball, but as Maskrey made a slide for the base Dowie fell upon him and pinioned him to the earth. But for Dowie, Maskrey would have scored and everybody knew it.

be given to the visiting team. Wilson did not pretend to wait the fifteen minutes.

The New Orleans boys took the decision as final and started to leave the grounds. Wilson was called for, but he wouldn't come. Then Mr. William Sands was asked to take the umpire's place, as the rules provide. He did so, and the visiting team, refusing to come to play, nine balls were put over the plate, and the game was awarded Atlanta.

Atlanta deeply regrets any such occurrence. Many people in the crowd sympathized with Hill, but he was clearly to blame for losing his temper and bringing on a disgraceful scene. Hill is a gentlemanly young player, and deeply regrets that he should have allowed his temper to get the better of him. Hill got out of a sickbed to play yesterday, and says that if he had not been a sick man he would never have been guilty of such an act.

Hill was last night indefinitely suspended by the Atlanta management. His case will be properly dealt with.

Macon. Ga., May 6.—(Special.)—It pays to win a game every now and then. The crowd drawn to witness thefirst game between Macon and Memphis was the largest that has yet passed through the gate. Macon kept in the lead up to the fourth inning and excitement ran high. Weddige made the hit of the season, a clean home run on a hot liner to center field and not over the fence. Then the crowd went wild and Weddige remained out in a rain of silver like a sensible man. With one or two exceptions the game was ordinary, but at any rate the crowd enjoyed it. Score:

Chattanooga, Tenn., May 6.—(Special.)—
Flushed with nine straight victories Mobile met Chattanooga this afternoon and was bailly beaten.

Baker occupied the box for the locals and except in the fourth inning the visitors could not do anything with him. Neal pitched for Mobile. The local batters easily gauged his curves and batted him all over the field. Gelss lead the batting for the home team getting a sacrifice, a single, a two-bagger and a three-bagger. The three-base hit came in when three men were on bases and all scored together with Gelss owing to O'Connell's wild throw, His two-base hit in the eighth inning also brought in a run.

Birmingham Wins.

Birmingham, Ala., May 6.—(Special.)—The first game of the Birmingham-Montgomery series was played here today to 4,000 people. The home club shut out the visitors, making in all seven runs, out of which six were made in the fifth inning.

Petty and Sweeney were in the points for the locals, and Tommy Gillen and Pettz made the visiting battery.

Gillen, who is an amateur, did very effective work for awhile, but was not equal to the heavy Birmingham batters.

Nobody succeeded in knocking over a base hit, but on errors and wild throws some of the locals would advance with surprising rapidity. Birmingham Wins.

rapidity.

Petty never pitched a better game in his life. He struck out nine men, and the visitors only got two hits off his delivery, and by all odds he pitched the best game so far in the Southern League. Gillen disabled Third Baseman Niles by hitting him.

The most amusing feature was a special train from Montgomery, which brought thirty-five people to witness Birmingham's defeat. If they hadn't chartered the train many of them would have had to walk home.

Buford, Ga., May 6.—(Special.)—Monday last presented a scene in our town which we trust will never be repeated. By 10 o'clock a. m., our city, whose pride has been its intelligence, was filled with country people, men, women and children. No one seemed at first to understand this invasion, when these sturdy sons of the soil were all supposed to be busy at the plow and to be taking advantage of the fine weather, to try and better the "so-called hard times." Imagine our surprise to find out that it was all caused by the arrival of a negro doctor, who professed to cure all diseases. This man arrived on the mail at 10:30 o'clock, from Atlanta, was escorted as if he were a king from the depot, a white man carrying his duster and satchel. Crowds of people went with him to the room above Snadburn's store to consult him.

How did he cure them? He spit on his hands and then rubbed them on face, neck, or wherever told that the pain was. How these poor people could be defuded is a marvel. Such characters ought to be drummed out of our midst. This is a true picture of what we call "a social disgrace."

On the Necessity of a Broad Policy Among the Democrats of the State in Order to Insure Success.

Hon. W. Y. Atkinson, chairman of the state democratic executive committee, was in the city yesterday, and was seen by a astitution reporter in reference to the aplaints being made of intolerance ong the democrats of the second and eleventh districts.

What have you to say about the reportwhat have you to say about the reported action of the party in some of the counties in refusing to allow those who believe in the Ocala platform to participate in the democratic primaries?" he was asked.

"I do not know that such a thing has been done, except from what I have seen in the

newspapers, no official attention having been called to it. If it has it was certainly a great mistake and a wrong to those who were denied the privilege of participating in the democratic primaries on that ac-"Have you heard that such a thing has

"Yes, I have heard such a report. Wheth-

er it is true or not, I do not know."
"Do you think that any county has the right to prescribe as qualifications for voters in a democratic primary any other qualifi-cations than those prescribed by the democratic state executive committee of Geor-

One Test for Democracy.

"I do not. It is just as important and essential that the democratic party have one test for democracy for every militia district in the state as it is that the state should have one test as a qualification for voters allowed to formulate a rule of its own, it allowed to formulate a rule of its own, it will be impossible to say who is a democrat. A man might be a democrat in one county under the rules prescribed by the democratic executive committee of that county, when under the rules of an adjoining county he would not be a democrat, and would not be allowed to participate in its mass meetings or primaries. If, in any instance, a county executive committee ignores the meetings or primaries. If, in any instance, a county executive committee ignores the test prescribed by the state committee, it will wrong the voters of that county and will do irreparable wrong to the party within the state. Such action by any committee will be of greater service to those who seek now to disrupt the den ocratic party in Georgia than if every member of such executive committee were to go over to the third party and fight for it until the day of the election."

and ngus for it until the day of the election."

"Do you think that the views of those who entertain the belief that the Ocala demands are right raise a question as to whether or not they are democrats?"

"I do not. We do not expect every member of the party to agree upon every political question with every other, member. There are not twelve intelligent men in Georgia who will agree in detail upon all political questions now before the country. All that we can expect is that they agree upon principles which are essential to economical, just and free government. We have within the democratic party men who are in favor of the free coinage of silver, and men who are not.

Good Democratic Doctrine.

"It would be just as wise," continued Mr. Atkinson, "to drive out of the party those who are opposed to free coinage of silver as it would those who favor the demands of the Ocala platform In my opinion the main body of the Ocala platform is good democratic doctrine. For my part I do not believe that the country would be benefited but would be greatly damaged by the passage of the subtreasury bill but the danocrats who believe that this measure would be beneficial to the country have a right to their opinios. They have a right to insist that they be heard upon a question raised by the advotates of the subtreasury plan, and if they have a majority they have a right to decate the policy of the party upon that question. The minority must submit to the control of the majority. That is a fund amental democratic principle." Good Democratic Dectrine mental democratic principle."
hat, then, should be the test applied

the county executive committees? Every man who will agree to abide by the action of the national convention which meets at Chicago on June 21st and to vote for the nominees of the democratic party, is a democrat, and should have a right to participate in all democratic meetings. No county has a right to prescribe any other or different qualification. The wise course is to adhere faithfully and fearlessly to this rule. The majority will then determine the course of the party, and the minority, who ever they may be, should submit, abide the results, and aid the party to achieve victory in the coming elections."

"What do you think of the third party in Georgia?"

"What do you think of the third party in Georgia?"
"It is disappearing very rapidly. The rork now being carried on by the democra-y over the state is having a wonderful efect. The people are learning that there not room for three parties in Georgia, and nat the only way to secure relief from the isrule which the republican party has incred upon them is to work for democratic lecess. If the work continues as successilly as it is now going on, the third party ill not exist in Georgia, outside of a few calities, in two months."

Here's Some Solid Sense.

"Who do you think is Georgia's choice r president?" "Who do you think is Georgia's choice or president?"
"I do not know. I am not interested in he personal success of any candidate for resident. The thing for Georgia to do is o put herself in a situation where she can id in nominating a man for president who an carry the doubtful states and be elected a November. The party is in danger whenever its members lose sight of the party cod in their zeal for the success of their avorite candidate. In this connection I lesire to urge upon the democrats of Georgia in their congressional nominations not to allow their zeal for any man to induce them to overlook the effect upon the party of any action that will tend to leave discord within its ranks. If we are tolerant, conciliatory, fair and just to each other in our primaries, and judicially just in the action of the committees who are clothed with authority to direct the course of the party, the white people of Georgia will remain a unit, and we will succeed in electing every statehouse officer and every congressman in Georgia."

m. P. Jones Says About Dr.

"My wife who was an invalid from nervous sick headache has been entirely cured by six weeks' use of Dr. King's Royal Germetuer.

Her health is perfect. In three weeks two of my children were cured completely of nasal catarrh. It is truly a great remedy." Rev. M. H. Wells, of Birmingham, writes "that daughter and I were cured of neuralgia and rheumatism by the use of Germetuer after all known medical and climatic remedies had been need."

The Grand Old Warrior Indorses It.

"I have suffered for months from Insomnia and indigestion, and failing of relief, was induced to try Dr. King's Royal Germetuer. I am now relieved, and I hope permanently so. Yours, JAMES LONGSTREET."

The hot spring days are upon us, and the blood needs a little toning up after a day's hard work or travel, and there is nothing that will so quickly enliven and build one up as Dr. King's Royal Germetuer. It will quiet the nerves and give you a calm and sweet night's sleep, and the beauty of it all is that it is as pleasant to take as a glass of ice lemonade.

What Dr. J. B. Hawthorne Says About Dr. King's Royal Germetuer

"I am free from catarrh. I believe that I could get a certificate to this effect from any competent physician. I have used no medicine within the last six months except King's Royal Germetuer. My health is better than it has been in this transmission. Royal Germetuer. My health is better than it has been in thirty years. I am in possession of information which warrants me in saying that the relief which I have experienced from

the use of the medicine is not more certain and radical than that which it has brought to hundreds of persons in Georgia and other

states.

"I feel it to be my duty to say also that the effects of this remedy upon my wife have been even more signal and wonderful. She has been almost an invalid from nervous headache, neuralgia and rheamatism. In a period of thirty years she has scarcely had a day's exemption from pain. She has been using Germetuer about two months. A more complete transformation I have never witnessed. Every symptom of disease has disnessed. I appeared. Every sympto appeared. She appears to be twenty years younger, and is as happy and playful as a healthy child. We have persuaded many of our friends to take the medicine, and the testimony of all of them is that it is a great remedy.

He said that Westbrook was a thoroughly reliable, sober and industrious man, out of debt and in prosperous circumstances. His mysterious absence is, therefore, hard to account for. On leaving he only expected to be gone four or five days.

There was no reason why Westbrook should absent himself from his family. He had a small sum of money on his person at the time of his departure, and some of his friends hint at foul play.

The object and intention of petitioners is to do an extensive business, wholesale and retail, as dealers in hardware and other articles of merchandise, such as are usually kept in hardware establishments, to deal in machinery, agricultural implements, supplies for railroads, factories and other like enterprises, having authority to act as agents for others, as well as on their own account, and also to manufacture all or any of said articles, should they hereafter find the same desirable.

Said business is to be carried on for the purpose of pecuniary profit to the stockholders in said company.

The amount of capital stock to be employed by them, actually paid in, is one hundred thousand dollars (\$100,000), which they desire the privilege of paying in money, or in property suited for the purpose of said business, at its fair valuation; and they wish the privilege of increasing the said stock to any sum not exceeding three hundred thousand dollars (\$300,000), when and as they deem it advisable.

Their principal place of business will be in the city of Atlanta, in said feuten courts.

exceeding three hundred thousand dollars (\$300,000), when and as they deem it advisable.

Their principal place of business will be in the city of Atlanta, in said Fulton county, but they desire the privilege of establishing agencies, or other places of business, elsewhere as they deem best. They ask the privilege of taking and holding all such property, real or personal, as may be necessary or proper for carrying out the objects herein before expressed.

They ask to be so incorporated for a period of twenty (20) years, with the privilege of renewal at the expiration of that time.

They pray that this petition may be published as required by law, and that they may be incorporated under the said name of "The Clarke Hardware Company," for the period aforesaid, and with all the rights, powers and privileges above set forth, or that may be exercised by such a corporation under the laws of the state of Georgia.

State of Georgia, County of Fulton. I. G. H. Tanner, clerk of the superior court, for said county, do hereby certify that the forgoing is a true copy of the original application for charter of "The Clarke Hardware Company," as appears of file in this office.

Witness, my hand and the seal of said court, this the 20th day of April. 1872.

Clerk of the Superior Court, Fulton county, Georgia.

Pryor Streets.

HERE IS perhaps one of the most desirable corners in the city of Atlanta. It fronts on Peachtree, Pryor and Houston streets in the most attractive way imaginable, is right under the very caves of the great Equitable building that cost a cold million, while just a few hundred feet to the south a magnificant Masonic temple is soon to be erected on one corner and The Atlanta Journal will put up a modern structure on the opposite corner of Wheat and Pryor that will be unsurpassed by anything in this country. Now is certainly a most opportune time to place money in the heart of this growing and prosperous city. We all know that the gradual enhancement of real estate beats any business in the world. Every inch of chis lot is worth big money, and the day will never come when it can be bought chaper than now. Then buy it and take the benefits. The men that have the nerve to back their own judgment and buy real estate on Fryor street are bound to grow rich. Atlanta is just in her infancy. Her great waterworks will add 25,000 population to this city. Values necessarily increase. Buy now or pay more lafer. Terms, one-third cash, balance on time. Lot 100x104 feet. Cleveland and Defeat.

Editor Watterson has telegraphed another letter from Washington to The rier-Journal and it is as interesting earnest as the one from which we the pleasure of quoting a few days . In his second letter, he emphasizes and reinforces with unanswerable argu ments the objection which he urges gainst the nomination of Mr Cleveland Ve have no doubt that the views of Mr. atterson, as expressed in his letters, are those of nine-tenths of the thought ful democrats of the country. It could not be otherwise, for the reasons which he gives for opposing the nomination of Mr. Cleveland are based on the facts of the situation. They are such as appeal to common sense.

But the most interesting portions of both of Mr. Watterson's letters are his references to the peculiar attitude maintained by the democratic leaders at Washington. They seem to be incapable of facing the emergency which circumstances have developed. They pretend to be Cleveland men, or at least permit themselves to be quoted as Cleveland men, while in private they express the conviction that nomination means certain defeat. Such nidity is shocking, and Mr. Watterson irritating. He is willing to admit that he is somewhat fretted by it. All the democrats in congress know that Mr. Cleveland cannot be elected, but they tell it to Mr. Watterson and to other demoerats as a graveyard secret which is to go no further than the cloakroom.

Naturally, a democrat who really de sires the success of his party in order that its principles and its policy may be put in practical operation in the adminision of public affairs, finds the attitude of these democrats very trying to his nerves. In public they are under the influence of the mugwump hoodoo; in private they gladly admit that the Clevead movement means a democratic collapse-that the nomination of the ex-president means a surrender of the election in advance. "There were never so many cowards," says Mr. Watterson. "There vas neves so little straightforwardness."

After all, however, the people are not so badly fooled as Mr. Watterson thinks they are. While the politicians at Washton have been hiding behind events, afraid to speak out their views, the peole have not been idle. They have been lying the situation, and they see it as Mr. Watterson and every other sensible man sees it. As the result of this study we look for solid anti-Cleveland delegations from every southern state. It is th only response that the south can make to deliberate attempt to wreck the democratic party by the nomination of a canidate who cannot win.

"It," says Mr. Watterson, "the democratic party is bent on going to the devil ride of Mr. Cleveland's back, and if Mr. Cleveland himself is so dazed by the ee in his bonnet as to be willing, why ald any dissenting democrat interpose objection?" Mr. Watterson shows by own vigorous attitude that there is every reason why sensible democrats oppose the purpose of the party to sign warrant of defeat before the election

The democratic south, to which a demcratic victory means a great deal more han the opportunity to secure a few es, has called a halt. We know now, and the country will soon know, that inia, North Carolina, South Carolina nd Georgia will send anti-Cleveland deltes to Chicago. The same conditions that exist in these states are vital in the other southern states, and the result, as we believe will be anti-Cleveland delega-

We by no means share Mr. Watterson's fear that the party is to be given over to Cleveland and defeat. In the first place, Mr. Watterson's protest, clear, vigorous and patriotic, is calculated to open the eyes of those who have been deceived by the Cleveland clamor. In the second place, democratic south will set its face mly against an enterprise so hopeless nd indefensible as to nominate a candi date who is defeated before the contest

It is inconceivable that the lunacy which Mr. Watterson so vividly describes should be permitted to control the Chi-

A Touch of Anarchy Everywhere. After nearly nineteen hundred years of Christian civilization, we see churches revising their creeds, students revising the Bible, politicians revising user social nopular leaders revising our social

Anarchy shows its head everywhere in every field of human thought and action. In the oldest countries of Europe oold reformers have forced their governnts to try socialistic experiments, and nsider such matters as pensions for orkingmen and loans to the people to enable them to purshase homes. Here in the new world we see a country becoming unized under the forms of republiin government, with the specter of King Mob looming up to enforce the pro-

st of the people. It is anarchy in the business and indusial world, as well as in other lines of fort. Industry fails to reap its reward,

rained intellects of the period seem overleeped themselves, and cul-

ed men and women talk with childish simplicity about Buddhism and its won-ders, and follow the leadership of per-sons who claim occult powers that enable them to dery all the physical laws of the universe.

Even our blase newspaper men are dis issing the possible hypnotizing of Judge Marr, who mysteriously disappeared in New Orleans after refusing to recommend the pardon of Deschamps, the murderou voodoo doctor. In reply to the suggestion of The Springfield Republican that the prisoner destroyed the judge by the exerelse of some unseen secret power, The

cise of some unseen secret power, The New Orleans Picayune says:

We refuse to believe that this miserable old man, who devoted his powers to the debauching of infantile innocence, could control, by any occult powers, the will of men of average intelligence and average force of character; nevertheless there is no telling in cases where supposed magnetic and clairvoyant forces are in question. We have heard of cases where persons under mesmeric influence have been forced against their wishes to execute the will of another, but it would be monstrous to suppose that a sort of human carrion crow could, by hypnotic power, mold to his will men who have been raised to important public positions and charged with high public trusts, while he drove a third to desperation and death. We are not ready to accept any such monstrous conclusion yet. But it may furnish speculation to students of oxolit science so-called.

This paper refuses to believe and yet.

This paper refuses to believe, and yet has heard of such cases, and admits that there is no telling what may or may not be done by magnetic and clairvoyant

forces. If this is not a touch of intellectual anarchy, what it is? The times are out of joint, and people seem to be ready to accept the wildest theories, and ready to do anything that is unreasonable and unexpected. Is the world's stock of common sense exhausted?

Chairman Atkinson's Interview. We present in another column a strong interview with Hon. W. Y. Atkinson. chairman of the state democratic executive committee, on the reported action of democratic managers, in certain counties, refusing the right of participation in democratic primaries to those who are believers in the demands of the Ocala plat-

Chairman Atkinson speaks not only for himself, but he voices the unanimous sentiment of the state democratic executive committee, as expressed by the full meeting in Atlanta, when this very question was considered. The Constitution discussed the matter at length yesterday, and takes this occasion to reaffirm what it then said in urging the democracy of the various counties of the state to the adoption of a broad and liberal policy and the careful avoidance of an intolerant and proscriptive course.

As for the second and eleventh congressional districts we are confident that the broad-minded, earnest enthusiastic democrats of neither of the districts would do anything to jeopardize the success of the party in the state. Congressman Turner is an unswerving democrat, and Judge Atkinson, his distinguished opponent, is the same. There is not a truer democrat in Georgia than Judge Wooten of the second, and if there is a better democrat in the south than O. B. Stevens the record of the party does not show it. They have earnestly, steadfastly, and persistently fought for democratic success, and are now offering for congress as genuine, organized, rock-ribbed democrats.

The choice is to be made in both of these districts by the democratic party through primaries, and every democrat in each district is entitled to a full and fair showing.

It is not the occasion to inquire, as a means of regulating suffrage in these primaries, whether or not a man is favor able to the Ocala platform, the free coinage of silver, the single gold standard, an income tax, or what not. Every man who gives assurance that he will abide by the on of the democratic organization a right to participate in democratic pri-

The Constitution cordially commends Chairman Atkinson's interview.

The Plutocratic Way. The republican party hates all foreigners, and wages open warfare against

them when they happen to be poor. Colonel Weber, the commissioner of immigration has been badly rattled by a congressional committee, and some very significant facts have come to light. When immigrants land at New York the inspector stops every shabbily dressed man, but smilingly passes the well-dressed thief. Of course mistakes are made. Not long ago a Canadian worth \$100,000 was

detained because he wore common clothes. Our republican rulers and officials have been trained in the school of plutocracy. Their only test of a man's worth is his purse. If it is empty he must be treated like a criminal; if it is well filled he is

This plutocratic republican standard not only banishes good men of foreign birth, but it is utilized for the oppression of native Americans. Naturally, such a policy widens the gulf between the masses and the classes every day of the year. The insolence of wealth seeking expression through every branch of the government is bound to excite the popular

Already the plutocratic classes have declared in favor of a force bill to maintain their domination. This is madness and folly. The American people have never submitted to force bills and they never will submit. Force begets forceviolence will provoke violence-when men sow the wind they must reap the whiri-

wind. The Palmer boom seems to have been crippled under the hat.

The editor of The Charleston News and Courier ought to try some new kind of liver pad.

Editor Watterson is putting in some good work just now for democratic success. He sees the situation as it is.

The result in Muscogee county shows that primaries all over the state would have developed some surprising results. The Charleston News and Courier is not

discussing the result in South Carolina. This is natural. An editor that has been run over and wallowed needs a fortnight off for purposes of reflection and recuperation.

You get the news by going away from home, and you get your money's worth from Colonel Cockerill's bright little Morning Advertiser. Among other things you will learn that the democrats of Georgia have decided to divide the delegation to Chicago between Cleveland and Hill. We suppose the colonel has been misled.

promise of that sort in Fulton county. This compromise has only this significance, that it will obviate the necessity of a heated contest between democrats. The Georgia delegation will be anti-Cleveland.

EDITORIAL COMMENT.

The New York Recorder now illustrates some of its editorials with cuts. It is particularly startling experiment, and smashes the dignity of the editorial page while it undoubtedly brightens it.

It is said that Editor Shepard, of The New It is said that Editor Shepard, of The New York Mail and Express, never reads a demo' cratic paper. It is also said that he has dis charged the superintendent of his stage line because he is a Catholic. The colonel hat better read the democratic papers. They will mellow him, soften his prejudices and con vince him that it is unchristian to make x man lose his job on account of his religious helief.

The Birmingham Democrat is the name a bright sixteen-page weekly recently startes at Birmingham, Ala., and edited by W. Hand W. C. Worthington. It is a sound demo cratic paper and advocates David Bennet Hill for the presidency.

Hill for the presidency.

In 1850 Georgia had 91,206 dwellings; it 1890 she had 342,874, containing 352,054 families. The census report says: "The average number of persons to a family of the United States as a whole has steadily decreased since 1850. At that census there were, on the average, 5.55 persons to a family, in 1860 there were 5.28 persons; it 1870, 5.09 persons; in 1890, 5.04 persons, and in 1890, 4.94 persons. The decrease in the north Atlantic division has been particularly marked the average size of family in 1890 being 4.60 as against an average in 1850 cg 5.45. The greatest decrease in this division is found in Maine, the average in 1850 cg 5.64 persons having been reduced to 4.44 persons in 1860. 5.64 persons having been reduced to 4.4 persons in 1800. A prominent citizen and democrat of Athens, in an interview with The Athens Banner, says:

"The people should not be led to believe that Cleveland is sweeping over the face of the earth. He is carrying delegations from states that give republican majorities, but that does not signify that he is going to be nominated. It have no idea that he will be nominated. The south, in my judgment, will send up uninstructed delegates representing 159 electoral yotes. They will go to cast their votes for the man who can win. They will go to steer clear of all rainbow chasing after western states, and will turn their eyes to the man who can carry New York, New Jersey, Indiana and Connecticut. Mr. Hill will go to the convention at Chicago with the delegates from New York, New Jersey and Connecticut at his back. Mr. Gray comes in with Indiana to support him. Then why will not Hill and Gray be the logical candidates of democracy? The southern delegates will not be slow to see the true state of affairs. Hill will hold the key to the situation and will be the nominee of the party for president." ominent citizen and democrat of Athens

That Is the Round-Trip Rate to the State Convention.

DELEGATES AND ALTERNATES CAN COME

To the State Convention at One and One-Third Fares for the Round Trip—The

About ten days ago The Constitution, at the request of a number of delegates to the state democratic convention, inaugurated a movement looking to the securing of a special rate over all the railroads in the state for delegates and alternates to the convention of May 18th.

Formal application for a reduced trip rate was made to the Southern Passenger Association by The Constitution, which takes pleasure in publishing the following satisfactory reply, covering all the railroads of the state: Atlanta, Ga., May 5, 1892.—Hon. Clark

Howell, The Constitution, Atlanta, Ga Dear Sir: Referring to your letter in regard o rates for the democratic state convention herewith enclose circular No. 918 announce ing rates for said occasion. Yours very truly M. SLAUGHTER, Asst. Comu The circular referred to is as follows:

Atlanta, Ga., May 5, 1892-Democratic State Convention Atlanta Ca Way 18 1892 To General Passenger Agents of Companies Members of the Southern Passenger Asso clation. Gentlemen: Lines interested having agreed, rates of a fare and one-third for the round trip from points in the state of Georgia o Atlanta, Ga., and return, account above named occasion, are approved.

Tickets to be sold May 16th to 18th. in clusive, and to be of fron-clad signature form, limited to a continuous passage in each direction, with extreme limit May 23 1892. Yours very truly,
M. SLAUGHTER, Asst. Commissioner.

This will enable all delegates and alter nates to attend the Atlanta convention. Every county in the state has selected three or four times as many delegates to represent it as it is entitled to votes in the convention, and it is probable that no less than five hundred delegates and alternates will take advantage of the low rate which s given for the convention.

The more the merrier! There is room for as many as will come, and Atlanta's heart is big enough to receive them all. The railroads have acted very cleverly, and are entitled to the thanks of the many who will take advantage of the reduced rate offered.

Let everybody come, and let's have a grand rally, in which the democracy of Georgia will speak so zealously as to leave no possible room for the belief that the third party has any room in Georgia.

The papers were served by the attorneys representing the prisoners, but were not accepted on the grounds that the sheriff, and not he, had legal authority to serve them. The lawyer sought out the sheriff and the patrolmen gave out the report that they would not leave until the next day. That night the county authority lounged about awaiting an opportunity to place the papers in the hands of the much wanted officers. Very quietly they hustled off their prisoners, kept them hidden until 10 o'clock, when they hastily boarded an outgoing train and left. THE COMPROMISE EFFECTED, and the Two Wings in Fulton Now Flop Together.

The Hill and Cleveland Clubs' compromiscommittees met yesterday at noon, as called, at the office of Judge George Hillyer. Hill Club was represented by the committee appointed the day before, consisting of Messrs. J. T. Glenn, Fulton Colville, John Colvin, Frank Potts and Charles S. Northen, while the Cleveland Club had empowered Messrs. W. D. Ellis, T. B. Neal, Hoke Smith, G. R. DeSaussure and George Hillyer, with full authority to act for it.

The meeting was entirely harmonious, and Every member representing both sides en tered in full earnest into the spirit of the compromise, and the following resolution

Whereas, An amicable adjustment has been effected between the Hill element and the Cleveland element of the democracy of Fulton county, by which both sides have agreed to an equal division of the delegates from this county; therefore, be it

Resolved, That we hereby request the chairman of the democratic executive committee to call a meeting of the said committee, with the request that the primary election ordered me request that the primary election ordered for this county for the 13th of this month be declared off, and that a mass meeting be call-ed of the democrats of the county on Satur-day, the 14th instant, in the basement of the courthouse, at 12 o'clock, to ratify or reject such action.

There Will Be No Opposition. There Will be No Opposition.

While the meeting was in sessioh it was suggested that the two clubs had no authority to bind the mass meeting.

"Of course not," said Captain Ellis, "but having entered upon this compromise in earnest we of course pledge our honor to stand by its action and to support a joint delegation."

or the West Shore as general superintendant. Both are fine roads and the general superintendency of either one is a splendid position. The West Shore extends from New York up the west shore of the Hudson river to Albany and thence across the state through Utica, Syracuse, Rochester and Buffalo to Nlagara. The Lake Shore and Michigan Southern reaches from Buffalo to Chicago with divisions extending to Detroit, Lansing and Grand Rapids.

The offer is a high testimonial to Captain McBee's ability. He stands at the top among the railroad men of the south. The Vanderbilts have been watching his record for two years and were so pleased with his ability that they have made him this handsome offer. George Vanderbilt became acquainted with Captain McBee during the latter's superintendency of the Richmond and Danville's western Carolina roads. Captain McBee built the branch roads up to George Vanderbilt's Asheville estate.

Since he has been in charge of the Central Captain McBee has added to his reputation as an able manager. The saving in operating expenses has been repeatedly stated to be 600,000 for nine months. Of 1,400 bales of cotton which had been absolutely lost so far as the records showed, he found 400 in a little That's it," said Colonel Glenn, "and as that we can carry the county for Hill if we have to make the fight, I think the compromise is best, for it is not worth while to

promise is best, for it is not worth while to plunge into a bitter contest in this county after all the other counties in the state have acted, and when our vote could not alter the result."

"There has been some kicking among our "There has been some kind." said Mr. fellows about the compromise," said Mr. Hoke Smith. "I have no doubt myself that the county for Cleveland, but the compromise I will as the records showed, he found 400 in a little while.

When the railroads of the south changed their gauge to the standard, a few years ago, Captain McBee wired his general manager at 11:10 o'clock a. m. that his division was 3 feet 9 from end to end, Captain Green thought it was impossible. Captain McBee was the first superintendent in the United States to finish the change and trains ran through over his division without missing a schedule. His men moved like a well-trained army.

When he went to Savannah he inaugurated the weekly payment of the Central's wharf hands who had previously been paid off monthly. He broke the strike there last September and no complaints have been heard from his engineers or any other set of employes. He is liked by his men and is popular with the public. Captain McBee's friends regret the prospect of his leaving the south but appreciate the compliment in the offer from one of the greatest systems in the world.

No one can come nearer than a guess to there will be no opposition from our side."

And so it went, every member pledging himself in the name of the club he represented to abide the compromise looking to a division of Fulton's delegation.

Mr. George Cassin, an ex-member of the board of education, was quite seriously hurt yesterday afternoon on Broad street near Marietta.

Mr. Gassin was moving liesurely along the sidewalk when a telephone cable which was being strung fell upon his shoulder.

The telephone exchange has been engaged for two or three days past stringing cables from the office in the old Beil building. The cables are quite heavy and Superintendent Easterlin and Mr. Mullenix who has control of the work have taken every precaution to make it safe. Wires to support and sustain the cable have been stretched and were in use yesterday. One of these, however, broke yesterday and the cable dropped just as Mr. Cassin was passing. The lick was a severe one and caused him much pain. Mr. Mullenix secured a carriage and accompanied Mr. Cassin to his home when Dr. Jarnigan was sent for. The doctor soon succeeded in relieving the gentleman and he will be out in a day or two.

Superintendent Easterlin, of the Telephone company, expresses great regret at the occurrence and says:

"A large cable was being strung from the telephone exchange to the corner of Alabama and Forsyth streets for the purpose of bringing the wires that now cross the railroad at Forsyth street to the exchange in this manner as it has become necessary to get the wires out of the way of the bridge contractor. A large No. 4 wire had been stretched as a support for the cable, but on account of a flaw in this support wire it parted and let the end of the cable fall to the street."

The southern Baptist convention plunged into business with little ceremony, and its work is far advanced at the end of the first day. The three boards which conduct the great mass of its business have made their reports and the subject matter of each report has been divided and is now being rapidly digested by committees working separately on the different branches of the

The spee Judge Haralson, of Selma, and Rev. Dr William E. Hatcher, of Richmond, were unusually good, and Dr. Hatcher, at on point, rose to eloquence. In the election of officers Governor Northen, of Georgia, and Governor Eagle, of Arkansas, were very appropriately elected vice presidents of th

Levering, of Baltimore, and Hon, L. L. Foster, ex-speaker of the Texas house of representatives,, are among the best known Baptists of the country. The convention sermon was preached last night by Rev. Dr. Grambrell, of Meridian, who is recognized as one of the strongest men in his state, in or out of the pulpit.

Today is given up to the programme of

the mission centennial committee. The sub-ject is an inspiring one and will call forth many eloquent utterances today. The great convention crowded into the largest church in the city, and after the great auditorium of Trinity had been packed almost to suffocation, with people

great auditorium of Trinity had been packed almost to suffocation, with people wedged into the aisles as thick as they could stand, several hundred more clustered on the sidewalk, making the best of the situation by chatting with old friends.

Every available seat was taken both on the floor and in the gallery, and the crowd could not have been far short of 1,500. The actual attendance of delegates on the floor, as shown by the call of states, was 948, and there must have been four or five hundred others in the house. The number of badges issued was in excess of the number of delegates.

The opening exercises consisted of scripture reading and prayer by Professor Gwaltney, of North Carolina. The sixty-seventh Psalm was read and the convention rose and joined in singing "All Hail the Power of Jesus' Name." The singing was led by Professor D. B. Towner, of North Carolina, who has a strong and rich voice which a congregation will easily follow.

Then followed the roll call which showed present from Alabams fifty-five delegates; from Arkansas, 14; from the District of Columbia, 6; Florida, 23; Georgia, 106; Kentucky, 73; Louisiana 25; Maryland, 12; Mississippi, 28; Missouri, 39; North Carolina, 48; South Carolina, 62; Texas, 108; Virginia, 96, and Tennessee, 35. Besides these there were 209 delegates representing Virginia, 96, and Tennessee, 35. Besides these there were 209 delegates representing as many Baptist associations. This makes the total of 948 delegates on the floor.

The Election of Officers. It is a custom with the convention to elect officers by ballot and a motion by Dr. McCall, of South Carolina, to re-elect the president by acclamation met with a constitutional objection from Dr. Shackelford. An amendment instructing the secretary to cast the ballot for the re-election of Judge Har-alson swept the convention and drew from the judge a handsome speech. He said: President Haralson's Speech.

"I appreciate this honor more than I can tell. It is higher than any I expect to enjoy life. I accept the trust you have committed to my hands with reverence and committed to my hands with reverence thanksgiving to Almighty God that He

REV. DE. T. T. EATON, of the M

led us to such relations as exist between you and me. It has always been a pleasure to preside over this convention—rendered doubly so by the very kind and considerate manner in which you treat a presiding officer. I have never presided over any assembly where under all circumstances better order was preserved or business dispatched with greater facility. There is one thing that can trouble the presiding officer of the southern Baptist convention and that is in the exercise of the discretion with which you clothe him. This is exercised in the appointment of the committees of the convention, especially when questions of great delicacy are to be considered, upon which brethren are divided. You all know the relief he feels at the disposal of the question on which for the last three conventions, he was called on to appoint a committee—the Kind Words question.

Judge Haralson spoke of his regret that he could only appoint about one delegate in ten upon a committee when there were a thousand upon the floor and only 100 on committees. He said he never notified any one of his appointment beforehand and never called on the secretaries for suggestions, though Dr. Mell had thought best to do so. He referred to Atlanta as the Gate City of the Empire State of the South, distinguished the country over for the wealth, enterprise, energy and intelligence of its ditizens, and for the beauty and accomplishments and goodness of its women. "We meet in Georgia, that state which gave so many of us birth and claims the ancestors of so many more of us, a state endeared to all of us on account of the memories which

gather about its name and history from Milledge and Oglethorpe to Northen."

He then referred to the centennial of modern missions and said:

"This shall be an inspiring and hopeful sight, a moral regeneration, a force which shall spread as far as the waves of ocean shall seek the shore, a glory that shall extend as far as the universe shall extend its faming walls. A hundred years to come our children's children will recount what we may say and do upon this occasion and during this year in their behalf. Let us then, as far as we may, do something worthy of our conscience and our country, that will be a memorial in its character.

The gospel light is breaking.

The darkness disappears;

The sons of earth are waking

To penitential tears.

Each breeze that sweeps the ocean

Brings tidings from aftar

Of nations in commotion,

Prepared for Zion's war.

"Let us all rise and sing that hymn."

The great convention rose and sang with a will till the swelling song could scarce be contained within the walls.

The Election of Vice President.

After some skirmishing it was decided to elect the four vice presidents by ballot and the result was the choice of Hon. Joshua Levering, of Baltimore; Governor Northen, of Georgia; Governor Eagle, of Arkansas, and Hon. L. L. Foster, of the Texas railroad commission, ex-speaker of the house of representatives. Counting the ballots took some time and in the meantime some good speeches were made. Dr. J. B. Hawthorne

In behalf of the Baptists of Atlanta Dr.
J. B. Hawthorne made a statement. He said Atlanta Baptists expected a large attendance and were not disappointed. They first expected to get the new opera house, but that was not completed. Then they engaged a great warehouse, but the city bought it and began to build a great fire department. They looked about for a church and found Trinity the largest. When the pastor and stewards found that it was desirable for holding the convention in they tendered it to the Baptist brethren and insisted on their accepting it. Dr. Hawthorne paid a high tribute to Dr. Lewis and his board of stewards.

He explained that because of the level of the largest was a superior of the largest of the superior of the

ards.

He explained that because of the large at-He explained that because of the large attendance the committee did not undertake to furnish entertainment for any but delegates and adhered strictly to that rule. It had necessitated a violation of the scriptural injunction, "What God hath joined together let not man put asunder," but man and wife were only separated for a few days.

And whe were only separated and whe were only separated asys.

He closed by introducing Governor Northen, of whom he said: "I have the pleasure to introduce to you our distinguished governor, whose administration of the affairs of his high office has elicited the admiration and applause of every good man and woman in the commonwealth of Georgia. He will deliver the address of welcome."

The Governor's Wele

The Governor's Welcome.

The governor said:

Mr. President and Brethren of the Convention: It gave me great pleasure one year ago, as a delegate to the southern Baptist convention at Birmingham, to join with others in inviting the convention to the hospitality of this growing city for the session just about to begin. It now gives me equal pleasure, as the executive of this state, representing all the people and all the creeds, to say that Georgia gladly receives you into her borders. While I speak to you semi-officially representing the state, I do not come to suggest or intimate any innovation upon the long established views which you hold as to the union ing the state, I do not come to suggest or in-timate any innovation upon the long estab-lished views which you hold as to the union of church and state. In the memorable words of Roger Williams: "No human power has the right to intermedile in matters of con-science; neither church nor state, neither bishop nor king, may prescribe the smallest iota of religious faith." This doctrine, in this presence, I am sure is endorsed as emi-

GOVERNOR JAMES P. EAGLE, of Arkansas. nently true. Yet the state can and should recognize the helpful influence of religious training in the maintenance of law. The state should defend and protect religious in terests not alone because of their recognizes state should defend and protect religious in-terests not alone because of their recognized rights, but because it is through Christian effort we have worthy citizens, the peace of communities, and good order in the state. Since the Lord Christ gave His commission to His disciples: "Go ye into all the world and preach the gospel," the holy influences of His divine power have awakened the civilization of the world, and led men not only into high-er hopes in individual life, but into better ideals of civil government and God-honoring law.

ideals of civil government and God-honoring law.

Georgia receives you under this divine commission. No man ever delivered at any court more honorable or more worthy credentials than you bring to Georgia today. Ambassadors from the Klug, on your mission of mercy, grace and love, Georgia salutes you. While it is true, under our system of government, there can be no union of authority between the church and the state, there is of necessity a sympathy of interest between the two. Just as we have purity of life in individual character, we will have corresponding purity of conduct in government; just as we have virtue in the offices of the state. Just as the churches elevate the standard of living, personal respectability and trustworthiness, just that much they diminish the necessity for aw and the demand for shalkelad or executive interference. When the churches make for the state a high order of citizenship, the necessity for law and government will be, in a measure, destroyed. The law is made for the violator and the bad man, not for the obedient and good. If, therefore, under the Christian influences of the Churches every home in the state were made a Christian home, and all the inmates were brought under the holy influences of the Christian faith, there would be absolutely no need for penal law. The greas work of the churches, therefore, is to build the strength of the state upon the Christian service to the state, Georgia gives you greeting.

Again, speaking to you from the standpoint of the state, I may be allowed further to say that the strength of our system of government is not found in its theory so much as in the righteousness of its practical operation. What avails the virtue of a system when there is no virtue in its authority? Just as a pure stream cannot flow from a poisoned source, just so, good government cannot come from a corrupt official. To the churches we must be greatly at fault when the government is not ound in its theory so much as in the righteousness of its practical operation. What ava aw.

Georgia receives you under this divine commission. No man ever delivered at any court.

Dr. Hatcher's Response. Rev. Dr. William Hatcher, of Richmond, Va., was called upon by the president to re-ply to the governor's address. He did so in an exceedingly happy manLast Night's Session.

At 8 o'clock the convention reassembled. Dr. Eaton read the report of the centennial committee, a synopsis of which follows:

The Report on the Mission Centennial.

The centennial committee's report was presented by Dr. T. T. Eaton, D.D., pas-tor of the Walnut street church, of Louis-ville. The committee has been engaged

made some delightful studies in this line. When God has a special work to do, He works all along the line, as well as at both ends. Those studies have lodged in me the conviction that when there comes into our hearts an impulse to do something, that God will not go before us to move obstacles out of our way. The text is a call to the universal conquest of the world for Christ. In this effort for the conquest of the world we are called out."

Examining the text, the doctor noticed the suggestion that more people will want room. Back of all our religious work, as the propelling force, must be faith.

It is at that point that all our missionary forces today need reinforcement. Strong belief is needed.

Dr. Grambell related an incident of Rev. Mr. Leland, of Virginia, who built a baptistry in a community where there were no Baptists, saying that there would be, and he was going to be prepared for them. How many churches wait to get everything pleasantly arranged before undertaking extra work? One will have a church debt, perhaps, which keeps it from helping in general church work. And that debt stands for a long time.

He thought the convention might leave a blessing behind it, for it was a power and an inspiration. He spoke for some minutes on the convention as a reunion of old comrades, speaking particularly of the older members. The younger ones did not know what a reunion meant. Young soldiers go to camp with glittering buttons, shining bayonets and furbished accouterments every summer, but they don't know the meaning of the word reunion. Wait till they have been to war, on the long march, in the thick of battle, in the fiery charge seeing brothers fall beside them, and returning in the pale moonlight to the battlefield to bury their

The report presents the work done among the Indians and urges that what is done for the red man must be done quickly ere he passes away forever from his hunting grounds. The work among the Germans had been successful will encouraging.

The work in Cuba had continued to prosper greatly. The report urges that the time has come for greatly enlarging and extending the work in Cuba.

It takes the strongest ground in favor of increased work among the negroes.

It makes an earnest plea for work among the people of the mountain districts of our territory and in our cities.

It insists that experience has demonstrated the necessity of Our Home Field, the organ of the board, and urges its wider circulation. The report pays a glowing tribute to the "zeal, wisdom and consecrated tact" of the Woman's Missionary Union, auxiliary to the southern Baptist convention, and gives their report in full, from which it appears that these noble women have raised for home missions during the past year \$19,242.30, being an advance of more than \$4,000 on the year before.

the few additions to the churches is the strictures in receiving members. Two new churches have been added.

There is much poverty in Italy, and more this year than ever. When we remember how slow many pastors at home have been to inculcate and churches to practice liberality in paying and giving for the support and extension of the gospel, and when we remember how delicate is the position of an Italian, in view of the extortions of the Roman Catholic church, and when we think of the reaction of people from a system under which every religious privilege had its price, we may, perhaps, rather wonder and rejoice that so good a beginning has been made.

Brazil reported 90 baptisms, 419 members, \$4,150 contributions, 28,452 tracts and scriptures distributed.

Rev. Z. C. Taylor, of the Bahia mission, wrote that this was the best year's work of his life. Rev. E. H. Soper, of Minas mission, reported a year of hard work, many clouds and storms, with gleams of sunshine here and there. Rio mission baptized forty-four converts. The confusion in political government has made no impression upon missionary matters. The establishment of a mission at Sao Paulo is begged.

Mexico reported 127 baptisms, 958 members, \$1,383.70 contributions. At Zacatetas, Rev. H. P. McCormick numbers eighty-seven souls. The missionary has won a well-earned reputation for all that is true and good and noble among the best people of Zacatetas. All the other branch missions make encouraging reports.

The Japan mission at Kokura is but recently organized. Let none be deluded with the too common notion that Japan is on the eve of turning to the Lord. She has coveted our western civilization, and with it has absorbed elements which seem to throw her back upon her oriental religious ideas or forward upon the worse ideas of an occidental infidelity. 'A discriminating member of the Japanese mission writes: "A revolution is going on in Japan, and, as is always the case under such circumctances, the country is in a ferment. sion writes: "A revolution is going on in Japan, and, as is always the case under such circumctances, the country is in a ferment. Buddhism, like a, sleeping lion, feeling the pain at the attempts of other sects to deprive it of its claw, has awakened and begun to roar, rallying its followers and seeking to make proselytes as never before. Shintoism and other forms of idolatry are rampant. Universalism and Unitarianism are aggressive. Skepticism and infidelity are rife among the upper and educated classes. Especially are they affected by men of culture who have studied abroad and think it a proof of their superior minds and advantages to declare themselves ardent followers of Huxley and Spencer."

This means for the missionaries severe work of faith.

North China had nine baptisms the past year and the present membership amounts to

hosts whose churches dot her imperial domain, and the aid which she yet receives from this board is. In the language of the president of hor state board, "the very backbone of her in the last ten years Texas, Arkansas, Louislana and Florida have quadrujed their contributions to the foreign mission board, while Virginia, North Carolina and Georgia have only doubled theirs. Sunday School Report.

The report of the Sunday school board was then read by Dr. Frost, relieved by Dr. Burrows.

As to periodicals the report referred to the work begun twenty-five years ago by Basil Manly, Jr. It is significant that this work was begun by the same men who laid the foundation for the Southern Baptist Theological Seminary. The first editions of Kind Words were printed on old confederate paper. Out of "Kind Words" in 1886 came a complete series of Sunday school periodicals. In this series are eight different periodicals, Dr. Frost editing The Teacher, and Rev. Samuel Boykin editing the other periodicals. The collection was prepared by Dr. John A. Broadus.

The Kind Words paper is now devoted to reading matter, lessons having been omitted. The periodicals will be improved. Their circulation is constantly increasing. They are the property of the convention. Would you feed and fatten your own horse? Here is a property, the Sunday school periodicals, belonging to the convention and the convention can make it an engine of tremendous lifting power.

bring back larger blessings to us? If not, why is it that we do so much less than other people who are numerically less?

We are to carry out lines of influence into Mexico, Cuba, China, Africa, Japan; in all the desolated places in our own country.

These cords are to be constantly strengthened and expanded. Have you not noticed a church which grows more and more lifeless until it becomes no better than a Sunday club? Finally some young member becomes restless and branches are thrown out here and there. The mother church wakes up and becomes vigorous again.

Extend the mission work. Break forth on every side, the right and the left. Our hearts are oftentimes a great deal wiser than our heads. Cold calculations too often freeze out good intentions. Cultivate more exuberance. Truth garnished with flowers and served on ice is not going to stir people up much. Do not restrain impetuosity. We southern people have been a great people by ourselves. We have a great admiration society and we all belong to it. We speak of the great times that are gone. Brothers, greater times have come. This convention must do more than it has ever done in the past. This great southern brotherhood must break forth and help our northern brethren who are struggling with millions.

There are great republics to the south northern brethren who are struggling with millions.

There are great republics to the south without a Baptist missionary.

Dr. Grambrell took a retrospective glance at the Baptist church. He mentioned that he had recently been looking over some old papers. Among them were copies of The Boston Advertiser of one hundred years ago. "A peculiar thing which I noticed," the doctor remarked, "was an advertisement of several negroes for sale." This uttered rather deeply provoked a light ripple of laughter over the audience. During this century God has been building up an army of missionary workers and He has been smoothing down the way for the army. We have \$0,000 anti-missionary Baptists in a total of 3,250,000. The speaker told of finding a great post once far out in the country, standing alone, without other signs of a fence, or a gate or a house in sight. Upon getting closer to the post he discovered that it had been put there to warn travelers out of a dangerous gully. These anti-Baptists stand there as a warning for the rest of the church to keep out of that way.

We no longer hold that commerce goes before the gospel. The work that has been

done and is being done will be productive of wonderful good in that heathen world.

Just a little more than a century ago there was only one place in the world where Baptists could buy ground for a house of worship. At the beginning of this century there was not a place where a woman could get a collegiate education. And go back a little longer and we find that men held that women should not be allowed to read. In concluding Dr. Grambrell urged the church papers to take more interest in missions. Make the colleges institutions where God and his religion are first. Infuse a deeper zeal into the teachings. We need woman's influence.

Within the next century we should hope to reclaim every tribe from heathendom and Christianize the whole world.

Today's Programme.

The convention assembles at 9 o'clock this morning. During the forenoon session addresses will be delivered by Rev. J. W. Carter, of Raleigh, on "The Moral Basis of Missions;" Rev. J. P. Greene, of St. Louis, on "The Heathen Lost Without Religion;" Rev. John A. Brodus on "How Best to Utilize the Centennial." Between each address the convention will hold a general discussion on the several subjects.

Upon the reassembling of the convention at 3 o'clock this afternoon, half an hour will be devoted to receiving fraternal visitors. Then Dr. H. C. Mobley, will make an address on the present condition of missions. He will be followed by Rev. B. H. Carroll, of Waco, Tex., on home missions in America.

In the First Baptist church Dr. F. M. Ellis will preach at 9:30 o'clock a, m. and Dr. W. D. Powell at 10:30 o'clock discussing the same subects. At 8 o'clock p. m. the Rev. R. T. Vaun will speak at the same place on home missions.

sionary maps have been issued and much literature circulated. It is recommended to raise \$250,000 as a centennial fund, in addition to the work already agreed upon, viz., to send 100 new missionaries to foreign fields during the year, and to correspondingly increase the other departments of our mission work. This centennial fund is for church building, Bible translation and other permanent work. It is recommended that a beginning be made at this session in raising this fund.

Four general centennial meetings are to be held—one today in Atlanta, one in Louisville next October, one in Richmond, Va., next March, and one at the next session of the convention.

The chapel cards and certificates sent out by the Woman's Mission Union were commended. A special committee of one from each state was appointed for apportioning the \$250,000 among the states of the convention. Negotiations are pending Night before last Bieser's meat market on Decatur street was entered. The burglar broke into the qlace by boring an entrance in the rear and carried away a valuable shotgun, a pistol and a small amount

tioning the \$250,000 among the states of the convention. Negotiations are pending regarding securing Dr. Ellis to take the field for the centennial.

A programme was adopted for today, after which divine service was held.

Dr. J. B. Grambell, of Mississippi, read for the evening lesson from Isaiah 1, 4.

Dr. Menz, of Washington, followed with of money.

The matter was reported to the police, and yesterday afternoon they arrested Tom Ball on the charge. He was locked up at police headquarters and will be given a preliminary hearing this afternoon.

'The evidence against him is said to be very strong. None of the stolen goods have as yet been recovered, though they have all been located by the detectives. The congregation sang "The Morning Light Is Breaking."

The sermon was by Dr. Grambell, and an able one it was. For an hour he held the closest attention of his vast congregation. He spoke from the text: "Enlarge the place of thy tent and let them stretch forth the curtains of thy habitations."

"Some years ago," Dr. Grambell began, "that sainted man, Dr. Manley, came to the Mississippi Baptist state convention, and while there preached a sermon of great sweetness and power. It is one of the sermons which has had a marked effect upon my religious life. He said in the opening: 'We want a religion with much of God in it.' I think that no inspired words I have ever heard have been more in my heart than those. There is a great deal of religion which has not much God in it. The religion of the Bible is a religion with God in it. Since then I have made some delightful studies in this line. When God has a special work to do, He works all along the line, as well as at both works.

S. Bache & Co.'s Stock Letter. New York, May 6.—The London market did othing at the opening, but as prices weak-ned here under offerings by the bears they leked up a little. St. Paul and Atchison eculation was again extremely narrow and thing of interest turned up to affect prices ther way. The bears lay great stress on the ipments of gold, which will amount to a lit-

ever three millions for the week, but it is had no effect on prices as yet. Still if is movement should keep up at this rate for couple of weeks more it must ultimately a couple of weeks more it must ultimately be felt in the loan market, and as easy money has been such a bull factor, this would remove one of the greatest arguments of the bulls. Sogar was steady, but it did not rally as well as it ought to have done. The general market was more strong, though weak still, the shifting around of the room traders mostly accounting for the rise. The short interest in the market is large, and if any long stock comes out the bears all seem to be willing to take it at a concession. The market closes a little off from the best prices, as a poor bank statement is expected tomorrow.

of the day up to 1 e'clock has ranged within about 3 points of yesterday's figures. That the advance resulting from an adjustment of the labor difficulties has not been greater is a disappointment, and evidences the existence of a large long interest and but little fresh buying power. Manchester yarms are reported to be dull but steady and cloths dull. The indicated interior receipts for the week, as made up by the New York cotton exchange, are 18,000 bales, against 10,431 last week and it,831 bales last year. During the aftermoon the market showed a little more strength and improved slightly, final prices being steady at 4 points advance on yesterday's figures. The interior movement is 3,540 bales. Shipments, however, are light, and stocks lose only 14,000 bales, which will give us a plantation movement of probably 85,000 bales, against 18,000 bales last year, while the quantity of cotton coming in sight for the week will probably be 55,000 bales, against 66,000 bales last year.

Lehman Bros. Cotton Letter.

By private wire to A. P. Youngblood.

NEW YORK, May 6-Liverpool this morning was about 3-846 better, and at the same time showed a more normal spot market, the sales being fairly good, both of those facts the result of the advices from Manchester in regard to the strike, which we sonsider as practically settled, notwithstanding that there were rumors here today of a hitch in the negotiations. An inquiry on our part to the other side, addressed to one of the largest houses in the trade, has confi med the fact that work will be resumed on Monday. Here we opened about 4 points higher under the stimulus of the foregoing news, but quickly sold off to last night's prices, notwithstanding good buying, because of some little apprehension that things were not quite arranged abroad. Towards the close, however, a more confident feeling set in, and prices gradually crept up to the best of the day, closing just about as they opened. The feature of the doings has, we think, been the large buying on the part of a prominent English house here, who are large carriers of cotton and who, we think, are preparing to ship a further line of their holdings, finding, as we believe, this course cheaper than to purchase in the southern markets, which are, relatively speaking, higher than this. Receipts this week have been somewhat larger than were anticipated both at the ports and interior. This, however, has had no bearing upon prices, and the movement now is hardly regarded as a factor in the edergia state commissioner has been generally known here today, and also apoken of carlier in the week. The decrease given as to the acreage is large, and if so must tell in the end upon prices. The market still continues to show much stability.

THE CHICAGO MARKET.

Features of the Speculative Movement in Grain and Provisions. Grain and Provisions.

CHICAGO, May 6—Wheat broke 2½ today, corn 1½c and pork 25c. There was one failure—a small one. Brighter weather, a rumored removal of the Russian prohibitory edict and improved crop conditions in Kansas formed the combination that smashed prices. The closing quotations were at or near the bottom for the day. The market started on a break of ½c and dropped another ½c in a few minutes. The longs, large and small, turned in to sell. The bears helped very freely, supposed to be Cudahy wheat bought yesterday. On this the July price got 1c under the opening and 1½c under last night. The bulls threw up wintry mixture. It came out in the form of cold long wheat. It was a

Lamson Bros. & Co.'s Grain Letter. Chicago, May 6.—The advance in our market yesterday was followed this afternoon by resterday was followed this afternoon by nearly as great an advance in the English and French markets. The demand for flou continues. All offerings have been accepted Storms and cold weather prevail in the wes, and northwest. Believers in wheat have been punished so often within the past simonths that they do not stand very Jong or their conviction when the market acts the least unfavorably. Some of them took their profit on the advance yesterday, others wer liberal sellers at the decline today on stoj loss orders, closin-the market about 2 centilower than yesterday. Although the deman for corn and oats was good the speculative feeling was weak and the prevailing prices were unfavorable to holders. The trade, however, has a little more confidence that formerly and it is outle probable that there will be liberal buying for July around 40 cents should the market decline to that point. The provision trade was dull, very little interest excepting parties who have a custom correspondence, which trade is fairly good.

The Celebrated GUNN FOLDING BED

We claim the following points of advantage: 1st. That with our bed it is impossible to wear the carpet or mar the wall as with the "turn-around" style of combination. 2d. The ease with which it can be opened

and closed, requiring no more effort to move the cabinet than to push a sliding door. 3d. The cabinet and mirror are always in view, and in the most convenient position

4th. The bed may be open and not interfere with the easy access to the cabinet. 5th. The operation of opening and closing requires less floor space than any of the 6th. The cabinet can be moved either to the right or left of the bed, whichever is most convenient to the room.

7th. Our bed is perfectly safe, as it is im

8th. We have the lightest weighted bed on the market, using but 40 pounds of weight and no springs to weaken, groan or get out

9th. We have a comfortable bed, because your can use any bed spring desired, and have plenty of room for mattress and clothing. 10th. The entire piece can be handled in three separate parts, which makes it very convenient to move, as it can be taken up any stairs or through the smallest doorway 11th. We have the best ventilated bed on the market, and the easiest to clean or dust. The only practical combination bed for every

POOR KING COTTON!

He Has Been Dethroned in the Southern

STATISTICS OF THE ACREAGE REDUCTION

The Crop Will Be Reduced from 20 to 25 Per Cent—How the Figures Stand Here in the Empire State.

King Cotton has lost his crown.

Cotton is no longer king of the southern states—that's reduced to a dead certainty. Several days ago The Constitution gave a synopsis of a circular that "Bradstreet's" had sent out all over the southern states making inquiry about the condition of business and financial affairs.

The whole world of commerce has been looking inquiringly to the south for the past few months. All Europe has been listening to hear some news over the waters whether the southern states would plant less cotton this year than hitherto, and, if so, how much

Financiers of the north, looking to their

Financiers of the north, looking to their own interests, have likewise been studying developments in the southern half of the country, for it all depends on cotton—cotton low or cotton high.

With a view to ascertaining a pretty accurate estimate or census of facts and figures concerning the outlook "Bradstreet's" went to work and sent out circular letters containing inquiries as to how much surplus cotton is held over on the market this year, how much will be the reduction of the acreage in the south, how about the financial standing of merchants and similar questions. Nearly three thousand replies were heard Nearly three thousand replies were heard from 826 counties in ten southern states, and these will be sufficient to give a pretty accurate estimate on business matters.

All Through Dixie. Taking the Carolinas, Georgia, Florida Alabama, Mississippi, Louisiana, Texas, Arkansas and Tennessee together, "Bradstreet's" shows, according to nearly two-thirds of the replies, that planters are worse off financially than one year ago, while only a few in excess of one-half say the same for the store-keeper.

excess of one-half say the same for the store-keeper.

As the status of the latter figancially depends upon the planter's ability to consume and pay for goods, there appears to be a discrepancy here which may be accounted for by a greater ability on the part of merchants to resist the prevalent depression, to the fact that they have not been obliged to respond fully to conditions prevalent among planters, or to their having experienced the worst in many instances and having proceeded toward recovery. But, it should be added, there are very few data pointing to the truth of the last theory.

The uniformity (about 90 per cent) with which correspondents, scattered from Wilmington N. C., to Brownsville, Tex., state that factors, brokers, storekeepers and others have cut down advances of money or supplies to planters from 25 to 45 per cent, is striking, and points conclusively to the fact that the cotton crop of 1892 will be made more cheaply, for reasons beyond the control of the growers, than for many years past.

In all cotton states where fertilizers have

made more cheaply, for reasons beyond the control of the growers, than for many years past.

In all cotton states where fertilizers have been largely employed they will be used much more sparingly than heretofore. On the Atlantic coast there are twelve replies to each one to the contrary, which state this, and in the gulf states seven to every one. One company selling fertilizers extensively in Georgia, Alabama, Mississippi and the Carolinas writes that its sales this spring have fallen off 30 per cent. Other manufacturers and dealers report in some instances a decrease of as much as from 35 to 50 per cent.

Eight correspondents say the acreage planted with cotton this year will be smaller than in 1891, for every one reporting that the acreage will be either the same or larger than in 1891. But it should not be overlooked that it is not yet too late for some planters to change their minds on this point if their circumstances permit, particularly if the impression is widespread that restricted cotton acreage will be the rule.

The Average Reduction of Cotton.

The Average Reduction of Cotton. The falling off in area to be planted in otton this year, as reported, is from 20 to

25 per cent.

-mi equ pouree friuepiae seu quos equiportance of diversified crops, as 1,811 reports are that a larger acreage will be planted than ever before to "corn and oats" and than ever before nos rice and tobacother cereals, potatoes, peas, rice and tobacco, and that hog and cattle raising will receive more attention. Only 122 state that
the acreage to crops other than cotton will
be the same or smaller than one year ago.
"Bradstreet's" has certainly done a great
service to the financial and commercial
world in working up these statistics over forld in working up these statistics over he southern and gulf states.

Here in Old Georgia.

Here in Old Georgia.

Touching the condition of affairs the following sample reports are taken from "Bradstreet's:"

Cedartown, Polk county—The mining interest is of great benefit to our merchants. The total monthly pay rolls average \$6,000. Public improvements also help.
Gabbetville, Troup county—We are not really in as bad a fix as some people think. We have, in fact, only recently awakened to the actual situation. We have been spending more than we have produced at the present ruinous rates. Economy is the watchword.

Norwood, Warren county—We are getting less, but we can do on less.

Abbeville, Wilcox county—Low cotton and tight money will prove a blessing in the end.

Bartow Jefferson county—The credit sys-

Bartow, Jefferson county—The credit sys-m has broken down, and the disease has tem has broken down, and the disease has cured itself.

It is clear that the enthusiasm—the craze perhaps is more accurate—of cotton culture among southern farmers is dying out.

Not unwisely, but wholesomely in a gradual reduction of acreage to the advantage of grain and stock farming.

Commissioner Nesbitt's Report.

State Commissioner of Agriculture Colonel R. T. Nesbitt, assisted by his chief clerk, Mr. B. F. Carter, has finished his first report for 1892 and has it now in the princer's hands.

Total Acreages.

Total Acreages.

The total acreages of the various crops for the year are as follows compared with last year:

Cotton, 80 1-5; corn, 114; oats, 105 8-9; wheat, 108 1-6.

An increase is thus noted in all food crops and a decrease in the acreage of cotton.

It is also to be found in the commissioner's report that the acreage devoted to grasses is much larger than last year.

Throughout north Georgia the cotton crop is late from ten to fifteen days and in many other localities the crop is reported as being backward.

Fertilizers Are Off.

Fertilizers Are Off. Fertilizers are decidedly off this year.
The amount of fertilizers used this year as compared to last year is as follows:
North Georgia, 72; middle Georgia, 69 1-3; southwest Georgia, 67 5-8; east Georgia, 72 1-2, and southeast Georgia, 68.
The report is a very accurate one, having been compiled by more reporters and with more painstaking than the average crop report.

THE AUCTION SALE

Which Will Take Place at Ormewood Park on May 12th,

OFFERS A SPLENDID OPPORTUNITY

Secure a Home on Remarkably Low Terms—A Chance for Workingmen to Get a Home Cheap.

Great interest centers in the auction sale of lots which is to take place at Ormewood or lots which is to take place at Ormewood Park on Thursday, May the 12th.

Messrs. Samuel W. Goode & Co., who will conduct this sale, are already assured that a large crowd will be in attendance and the desirability of the property as an investment is conclusive evidence that the lots will go like bot cakes. lots will go like hot cakes.

investment is conclusive evidence that the lots will go like hot cakes.

Atlanta suburban property is now declared by those who know to be the very best investment that one can put his money in, and Ormewood Park being in the direct line of Atlanta's growth and only one-fourth of a mile from the city limits, offers great inducements to those who would draw a steady dividend from their money.

This property consists of 100 acres and is located about one-fourth of a mile southeast of the city limits and within full view of Grant park and the Confederate Soldiers' Home. The Metropolitan dummy line to the home runs through Ormewood Park for one-half a mile and affords quick access to the city every half hour.

The lots at this choice reservation are large and front-wide and well-graded avenues. "Ormewood avenue" is a magnificent drive sixty feet wide, is beautifully graded and lends direct from Grant park through the entire property.

One of the beauties of Ormewood Park is the wealth of shade trees on the property. One of these oaks would be worth a thousand dollars if situated in the front yard of some Atlanta capitalist. In addition to this; when one buys a lot in this suburb he gets a piece of land large enough for a residence, and all the outhouses he desires, with a great big front yard thrown in.

Workingmen who are paying from fifteen to twenty-five dollars per month for the rent of inferior houses, could buy a lot for the same money out at Ormewood Park and have a home built which would belong to them in a period of five or six years.

Those who purchase lots at the auction sale on Thursday. May 12th and obligate

or six years. Those who

or six years.

Those who purchase lots at the auction sale on Thursday, May 12th and obligate to build houses costing not less than \$1,000 need only to pay 20 per cent down, and can pay the balance in easy installments.

The idea of Messrs. Samuel Goode & Co.. who will conduct the sale, is to attract home-builders to Ormewood Park, and the entire proceeds of the sale on the 12th of May will be devoted to improvements on the property.

May will be devoted to improvements on the property.

Messrs. Goode & Co. have arranged for a great barbecue at the Ormewood Park sale on the 12th instant and also a band of music, and those who attend will be banqueted to their hearts' content. Those who go will be given a free ride to Ormewood Park on the Metropolitan dummy line from the corner of Pryor and Alabama streets. The sale begins promptly at 10 o'clock a. m.

GETTING UP THE MONEY.

Odd Fellows Going to Work to Raise Sub-

scriptions for the Home. Now that the site for the Odd Fellows' Orphans' home has been settled upon, the Odd Fellows will settle down in good earn-

est to collect the money needed to build and equip the home.

It is proposed to build a home to cost \$25,000, fitted up with every modern convenience and large enough to accommodate every Odd Fellow's orphan in the state.
Of this sum \$16,000 has already been raised by lodge subscriptions from members and from charitable people generally.

Atlanta gave \$10,500 in hard cash money as an inducement to bring the home here. The other cities which offered good sums will not fail to subscribe liberally to the home, now that it has come to Atlanta.

The Atlanta Odd Fellows will redouble their efforts to get up money for the home. A sanguine Atlanta Odd Fellow said yesterday: erday:
"Atlanta has got the home and feels proud

Atlanta has got the home and reels proud of it, and now we are going to do the handsome thing by it. Atlanta will add to the original \$10,500 offered and will make it \$15,000. That is half the sum total necessary to build the home. Up to now only members of our order have contributed. There are liberal citizens, not Odd Fellows, who would take pleasure in making handsome donations to the home. We anticipate no trouble at all in getting up the \$25,000.

"How will the home be maintained? Oh, we'll have no trouble about that. The home will not be self-supporting—that's true. But it will be kept up by voluntary contributions from the members and others, and, if necessary, by an assessment made by the grand lodge upon the members."

The plans for the home are to be gotten up at once and the best will be selected.

Work on the home will be begun in midsummer, and perhaps by Christmas the home will be completed.

BITTEN BY A MULE, Which Would Not Release Its Grip Until

Shot Dead.

Shot Dead.

Greenville, S. C., May 6.—(Special.)—At Walhalla, S. C., on Saturday last the singular conduct of a mule belonging to Mr. John D. Verner attracted considerable attention, and resulted in the serious if not fatal injury of a negro boy named Henry Simpson. The mule had been acting strangely for several days and was sent in charge of the boy to Walhalla for treatment. No sooner had it arrived in town than it seized the boy by the arm with its teeth and held on with bull dog grip. No efforts of the boy could make him let go and his screams for help soon attracted a crowd. Their combined efforts could not induce the mule to release his grip, and only after being shot and killed did he do so. The mule is supposed to have had hydrophobia. The boy's arm was frightfully lacerated and it is feared that the shock and wound will prove fatal.

Sam W. Small Will Speak.

At the following appointments on the dates mentioned below, and respectfully invites his fellow citizens of the several counties of the fifth congressional district to attend these addresses upon the political, industrial and financial issues of the present era. Gentlemen desiring to join in the discussion can obtain a fair division of time by addressing Mr. Small, of Atlanta in the meantime. The appointments are as follows:

Watch the Knot.

The popularity of the bowknot is on the increase. The more universal it becomes the more it grows in favor. One secret of its success is that the price is as popular as the article itself. It is out of nobody's reach, and it appeals to eyerybody's taste. It is the intest fashion out, but it won't go out of fashion. It can be utilized in a hundred different directions and it serves well every purpose to which it is applied. If what is handsome, seasonable and stylish has any charms for you at all, you can't very well get along without it. See our line at 69 Whitehall street.

THIS IS A "SPEC" FOR SPECULATORS.

Bosque Bonits, at West End, Is a Popular Buburb and Will Attract Those Who Wish to Build Homes.

A gentleman speaking of "Bosqu Bonita," yesterday said: "It is one of the most lovely suburbs ever saw, and it is in a section that everyever saw, and it is in a section that every-body wants to live in. If I was going to build a suburban home I would put it in or just as near West End as possible. This is the coming fashionable suburb of At-lanta. Why, just look at the number of prominent men who have homes there al-ready. Five years from now it will be the residence center of Atlanta's wealthiest citizens. As men accumulate money they want to remove the environments around them so as to have elbow room and enjoy them so as to have elbow room and enjoy absolute liberty. They want a big lawn in front of their residences and plenty of room in the rear for horse lot, outhouses

absolute liberty. They want a big lawn in front of their residences and plenty of room in the rear for horse lot, outhouses and a garden. This is why so many men of means are seeking suburban homes, and why West End has become such a popular home center. A man can live there and be just as convenient to his business in Atlanta as though he resided within a block of the artesian well. The electric cars and the Central railroad give him all the access to the city that he needs, and he is not cooped up like a prisoner and bled by exorbitant taxation. It is the desire of my life to own a home at or near West End, and when I do you may look out for something attractive."

The gentleman making these remarks referred to Bosque Bonita, the lovely suburb near the junction of Gordon street and the Sandtown road, which is almost on a threshold of West End.

This property consists of about twelve acres, and has been platted out in handsome lots and broad avenues by Messrs. Samuel W. Goode & Co., the popular real estate agents. The property fell into their hands by accident, as it were, and they have fortunately arranged to put it on the market for sale at a low price and on easy terms. Property in the direction of this suburb is in great demand and very scarce at high prices. Therefore the sale of lots at Bosque Bonita is creating considerable excitement among the investment seekers. There is no property in the neighborhood of West End that is more desirable. It is covered with primeval woods and lies just exactly right for building purposes. So great has been the demand for lots at Bosque Bonita that Messrs. Goode & Co. have arranged for an auction sale to take place on Tuosday, May 10th, at 10 o'clock a. m. The Consolidated electric line, which runs cars to West End, will take those who desire to attend the sale to Bosque Bonita free of charge. The event of the day will be entertained in a royal manner. The terms on which the lots will be sold are such as to meet the convenience of almost any man with a moderate income.

When you buy your spring medicine you should get the best, and that is Hood's Sarsaparilla. It thoroughly purifies the blood. Sick headache yields to Beecham's pills.

SAM'L W. GOODE & CO.

E. M. BASS & CO.

We call attention to the notice of this firm announcing the postponement of their opening at the Dougherty building on Peachtree street to Monday, 16th instant.

The Constitution takes this occasion to extend to these gentlemen a hearty welcome to our city. Atlanta needs all the citizens that she can get when they are like the Bass Bros. They began business in a small way in Griffin, mere boys, a few years ago. Their success was phenomenal from the start, and today they stand in the forefront in commercial circles in Georgia. They now have a large business in Rome, and one in Carrollton, and the wonder to their friends is that they have gone around Atlanta so long. In Atlanfa they will find a field for their inherent enterprise, and in advance we bespeak for them a success here surpassing even their own past brilliant, record.

A pure and healthful candy.

How often you wish you knew just where to find it. There is so much adulterated matter used in making candy now that it is almost unsafe to eat it.

This is especially so of candy made it foreign markets and shipped here for sale-quantity and not quality is the motto of the foreign manufacturer.

Atlanta is more fortunate, however, thar any other city in the south in regard to pure candles, not having to rely upon an importer article, having a manufacturer of her own whose highest aim is to place upon the market a pure and healthful article. George E. Johnson, Atlanta's manufacturer, has certainly succeeded in this, and today his candles are sought after in every town and hamlet in the south, for when you buy then you know that you are getting a genuine ritcle.
